

PULP OF UMBU

iTi tropicals inc

Tropical Fruit Purees,
Concentrates & IUF Pieces

SPECIFICATIONS

PRODUCT: FROZEN UMBU PUREE

DESCRIPTION: The Umbu fruit, *Spondias tuberosa*, is native to Brazil, and is also known as a Brazil Plum. The round fruit is light yellow to red in colour, around 2-4 cm in size, and has a leathery shell. The flesh is soft and juicy, with a sweet taste and distinct aroma. Puree is made from washing, extracting, filtering, and sterilization.
